Profile

Web developer with practical proficiency in Node JS, React JS, Javascript, Typescript, testing and debugging processes. Committed to providing agile and effective solutions to each situation.

Projects

Foodier

09/2023 – 10/2023

App where passion for food meets sustainability. Our web platform connects unsold food with food lovers to combat food waste.

Project Countries

08/2023 – 08/2023

Platform to search for countries and tourist activities in each country, which allows users to create and find activities according to their preferences regarding time or season, duration, difficulty, among others.

Pokedex

07/2023 – 07/2023

Platform to search and create pokemons freely, such as by name, type, damage, life, speed and more.
